

## Available contributions and compliance to LEED® points

Under the USGBC® LEED 2009 for Green Building Design and Construction

REVISED FEBRUARY 2010

OlyBond500 Green adhesive contains 12.5% rapidly renewable materials. To calculate the contribution, multiply .125 by the dollar value of OlyBond500 Green on the project. Add this value to all other rapidly renewable materials on the project.

- *Apply to MR Credit 6*

OlyBond500 Green adhesive has low VOCs and no noxious odors.

- *VOC <5g/L per ASTM D-2369*
- *Complies with the intent and requirements of IEQ Credit 4.1*

OlyBond500 Green point of manufacture is Rockford, MN 55373.

All OMG steel products contain a minimum of 25% post consumer recycled material by weight. To calculate the percent recycled content on a project, multiply .25 by the value of the fasteners and plates. Add this value to all other recycled content on the project.

- *Apply to MR Credit 4*

Fasteners and plates are manufactured\* in Agawam, MA 01001 and Itasca, IL 60143.

\*The point of manufacture for fasteners and plates varies depending on the specific part. Call 800-633-3800 for assistance.
